Lake Arts Council COVID-19 Plan For Safe Practices

The purpose of this plan:

To identify and communicate the Lake Arts Council's approach to protect the health of our staff and patrons. This plan is effective immediately in response to the current COVID-19 pandemic. All measures pertaining to staff at events also apply to professional staff and the Lake Arts Council office.

1. We request that any staff member or patron who has recently come in contact with someone who has been diagnosed with the virus remain home.
2. Anyone experiencing symptoms such as cough, shortness of breath or difficulty breathing, fever, chills, sore throat, or new loss of taste or smell, should remain home.
3. Our staff will wear protective face masks at all events, and we will also practice good hygiene with regular handwashing and will check our temperatures at home before coming to events. We encourage our patrons to do the same. All event venues will have restrooms with handwashing stations.
4. Pre-show sanitizing/cleaning will be done, but not any spraying or other aerosol type disinfectant. All surfaces that will be touched (tables, door handles, chair backs, etc.) will be sanitized before programs begin.
5. Exiting of audiences at intermission and after the shows will be controlled. This will be announced before the shows.
6. There will be no face-to-face contact between performers and audiences before, during, or after the shows.
7. Meaningful distance will be maintained between audiences and stages.
8. Face masks will be mandatory in food lines for servers and patrons.
9. Patrons are strongly encouraged to wear masks at all times (except when eating).
10. Names and phone numbers will be collected in the event that COVID tracking is necessary, but information will never be shared, and it will be shredded after 14 days.
11. Auditorium seating will allow families and guests to sit together with appropriate space between groups.
12. Attendance will be limited to the number of seats that can safely be occupied.
13. Tickets and other paper items (programs, promotional materials, etc.) will be made available with the least possible physical interaction (programs on stands, tickets and cash handled with gloves).
14. The Lake Arts Council will continue to seek virtual venues for programs.

If you have any questions or concerns about attending one of our events or visiting our office, please feel free to contact us at administrator@artsatthelake.com or call 573-964-6366
